Before Artisan, your choice for an outdoor kitchen came down to premium American-made brands at a high cost, or much less expensive (and much lower quality) imports.

At Artisan, we strive to offer affordable luxury with all the quality and features you expect in premium American-made appliances and accessories, at prices normally only imports can offer.

Our years of experience building equipment for some of the finest restaurants, and our state-of-the-art manufacturing facility allow us to offer an unprecedented mix of quality and value.

Your dream outdoor kitchen may be more affordable than you think
How do Artisan Professional Grills compare with the others?

With materials and construction, functional design and meticulous craftsmanship surpassed by none, Artisan Professional Grill’s are tough enough to withstand the rigors of living outdoors.

Artisan Exclusive Heat Delivery System

Creates evenly distributed extreme high heat to the cooking surface, and consists of 304 18-8 stainless burners.

- 20,000 BTU main burners
- 300 Series stainless steel “U” burners with dual rows of clean and efficient combusting double lance ports on three sides
- Best-in-class warranty
**Stainless Steel Cooking Grates**
Over briquette and “U” burner sections, these heavy-duty stainless steel cooking grates have a special non-stick electro-polished finish.

**All New Fully-adjustable Brass Valves Allows for Precision Flame Control**
The all-new grill knobs have been redesigned with precision touch in mind.

**Adjustable Food Warming and Grilling Rack**
Two-position adjustable warming rack stores up and out of the way when rossissing. Ideal for above-grilling-surface holding and cooking.

**All New Refractive Locked-in-Place Ceramic 5-way Heat Distributing Briquettes**
A special pyramid shape with a flat top and heat-holding cavity on underside delivers intense even heat to the cooking surface. Radiant tray locks briquettes in place. Turn tray over and fire burners on high with lid closed to self-clean.

**Flush Rear Infrared Rotisserie Burner**
32 and 36-inch model grills come with a flush-mounted 1500º rear ceramic infrared rotisserie burner. (excludes American Eagle Series).

**All New Control Panel Lighting**
Ambient blue LED front panel lighting illuminates knobs creating a rich beam of light exactly where you need it (excludes American Eagle Series).

**Exclusive Heat Protected Wiring**
Electrical wires are each encapsulated their full length with a 600º heat-resistance silicone sleeve, and all electric connectors are protected with a silicone boot of same heat resistance silicone.

**Sear Zone™ Infrared Burner**
Optional interchangeable infrared burner. 20,000 BTU infrared burner 100% combusting ceramic surface for intense even heat and authentic steakhouse results. Cooks 50% faster with virtually no flare-ups.

**Exclusive Control Panel Air Cooling Curtain**
A special air-cooling plenum blasts a curtain cool air that naturally flows up between the front control panel and firebox keeping front panel and bullnose safely cool to the touch. This also protects all the electronics.

**All New Redesigned Switches**
Stainless steel push-buttons for ignition and lighting are ergonomically integrated into the front control panel.

**All New Hood Lift Assist**
Heavy-duty stainless steel spring assist makes for one finger open and close of the grill hood.

**Halogen Work Light**
Integrated high-intensity halogen work light on 32” and 36” models. Light lens is easily removable without the use of tools for cleaning and changing bulb. (excludes American Eagle Series).

**Heavy-Duty 50-lb. Torque Rotisserie Motor**
Turns foods smoothly and consistently, producing delicious rotissed foods (excludes American Eagle Series).

**Made in the U.S.A.**
Made from all commercial-grade 304, 18-8 stainless steel, all heli-arc hand-welded seams with no mechanical fasteners.

**Integrated Thermometer**
Standard on every Artisan grill, this convenient thermometer is built into the hood for accurate oven roasting temperatures.
36" Artisan “Professional”

- Three 20,000 BTU main U-burners
- 15,000 BTU infrared rear rotisserie burner
- Total 75,000 BTUs
- 110V electronic ignition
- Bright halogen work light
- 2-position warming rack

Cart Model Ships Fully Assembled

**Notes**

1. All power supplies shown are 115 VAC - 1Ø - 60 Hz.
2. Power requirements for ARTP-32 and ARTP-36 include light and rotisserie power together. AAEP BBQ's use 9 VDC ignition and do not have lights.
3. Insulated jackets ARTU-26 / 32 / 36 do not require power and/or gas lines by themselves. Only the grills they are meant to insulate require them.
4. Art-SB1 gas line is 3/8" ODF connected to the existing grill with supplied gas fittings.
